Tompazi 20, Rethymno

This is an ideal property for the one that dreams to renovate a traditional Cretan house as it represents well that case! It is a very large one of 200 sq.m at its current situation, built in 2 floors, featuring also a plot of land of 650 sq.m inside the village's building plan which gives extra building rights so it has potential like to build a second or third house individually on the plot or extend the current one! The main structure of the building is quite good although it is more than 150 years old! It is located inside the village of Choumeri in very good position so as it offers great Sea and mountain views! You will find locally some amenities and facilities like taverns, mini market, cafes, while in only 5 min drive you will find the town of Perama which offers almost everything like banks, small hospital, pharmacies, super markets, gas stations, schools, etc... Moreover the city of Rethymnon is 25 min away by car and the beach 10 min away by car. In the surrounding there are popular destinations like the Melidoni cave, "Anogia village" the seaside resorts of Panormo and Bali and etc...

BASE INFORMATION:
