Luxury villas part of a complex for sale in Agia Triada Rethymno. It's about the "Trinity Hills" complex of 9 exclusive villas located 12 km away from Rethymnon city outside the village of Agia Triada. The whole plot, which has a size of 7.000 sq.m, is divided into 9 plots of approx. 750 sq.m. each, as well as into communal access roads.

The size of the villas will range from 125 sq.m. to 150 sq.m. The cost of the villas will start from 478,000 and there will be a choice of different packages. Special architectural features such as the built-in barbecue under the covered terrace, the infinity pool and more make the villas ideal for quality time. It offers all the comforts of a modern high-end villa and at the same time is a sustainable green complex, as everyone has the option to install solar panels and panels in order to reduce the energy footprint of the villa.

The plot offers a wonderful view of the sea and the surrounding area of Agia Triada, while the slope offers great privacy and exclusivity for the owners.

3 villas have already been sold which are: B, G & H

**The remaining available villas for sale are only Villa D & Villa I**

**No further modifiacations will be made to this villa and it will include the full Package B.**

**Price adjustments: Villa D at 620,000 euros and Villa I at 650,000 euros**

**The delivery time for both villas is the end of May 2025.**
