

Stone villas

"Erfi" & "Sfakaki" village

7 detached stone villas

Continuing the effort to stay close to the traditional Cuban architecture, our company has a new proposal for those who love the warm, traditional feeling of a stone built villa, but don't want to miss anything in terms of comfort.

We offer excellent quality stone built villas in selected plots, close to villages that provide the necessary facilities for your holidays, or even for a permanent resident.

We make sure that all the villas have an unobstructed view to the horizon sea from their verandas and private parking spaces for your car on your private land.

Arrange a viewing of already built stone villas and imagine yourself in your new home in Cuba.

Miskaki

Stone villas "Sifakaki" & "Erfti" projects

Stavros Village project

Stavros village has become a very popular residential area in the last few years, as it combines all the characteristics that make a place ideal for either a holiday or a permanent residence.

Only 500m from the 12km sandy beach of Rethymno, 3-4 minutes walk from tavernas and super markets, just 10mins drive from Rethymno and 45mins from Heraklion International airport, it is really the right place for your house in Crete.

Estimated Completion Time | Summer 2008

Erfti Village project

For those who prefer a more traditional atmosphere, Erfti village is the right choice. Here you can have the benefits of a tranquil village life while still being very close (20m) to Rethymno and also enjoy the mountain air while still being only a short drive (7-8 minutes) from the sandy beach.

The small local shops, tavernas and tavernas of the village, along with the friendly local people will make your stay there really pleasant and relaxed.

Estimated Completion Time | End of 2008

PRICES STARTING FROM 200.000 €
